TESTIMONIALS

"Handi is one of our partners through whom we have been buying products for Cafeteria & Co. Owing to their unmatched quality and sheer professionalism they've become one of our key partner for Frozen products."

Sumit Tandon, Director

"Our association with Handi is from the day we opened Burgrill's first store. The team is always willing to help us with a better solution for our needs by offering us customized products. They have always gone above and beyond our expectations with outstanding flexibility and responsiveness to our unique needs in order to create the perfect menu options for our customers. It has always been a pleasure to work with a company that understands our requirement and that's why we look forward to continue to grow our business with them"

Rajat Bawa, Co-founder

Burgrill

It has now been over a year for us, working with Rahul ji and Karan, and I count them among our trusted partners. Rahul ji is always willing to go the extra mile for us, be it specialised product innovation or if there is a sudden spike in demand. The best thing about Handi is the reliability of consistency and flavours - each and every time you will get the same tasting product, which is a great achievement for a team that runs such a big commissary setup. The team at Handi goes to great efforts to ensure the taste is authentic, and their products will definitely want your customers coming back for more. A big thank you to them for supporting us in our journey.
